WILL FIT ANY CAR OR TRUCK HAVING 5 STUDS ON WHEEL.

### **3 ARM UNIVERSAL HUB PULLER #259**

For passenger cars and trucks having wheels with five studs. Specially designed heavy malleable iron construction with extra large pulling screw that is scientifically heat treated and hardened for heavy and long service. Exerts a powerful direct force that will remove most stubborn wheel hub and avoids distortion of wheel lugs.

### **INSTRUCTIONS**

Attach the three arms firmly to drum, apply moderate pressure to center bolt, strike head of bolt squarely and sharply. Tighten and strike again if necessary.
